

## AURA® 135 SERIES CONSPICUITY TAPE

Single-layer metalized construction

No edge-sealing required

Resistant to face film delamination

Aggressive adhesive for difficult surfaces

Complies with FMVSS-108 requirements

Contains the DOT-C2 marking

## HYBRID POLYMER™ TECHNOLOGY

AURA® 135-HY Conspicuity Tape incorporates our Hybrid Polymer™ technology to create a stronger and more impact resistant reflective tape without sacrificing the long-term performance of the product. It provides a unique balance between stiffness and flexibility to allow for easier application. With the metalized single-layer construction of the product, no edge sealing is required and the product can withstand power spray washing and other harsh environments.

## TWO GRADES OF PERFORMANCE

**AURA® 135-HY Hybrid Polymer™.** A premium conspicuity tape offering excellent handling, body, and strength. Aggressive adhesive for application to metals, paints, and many difficult surfaces. 7-years durability.

**AURA® 135-AM Aftermarket Grade.** Excellent option for replacing damaged or missing tape. Incorporates the same aggressive high-tack adhesive. 3-years durability.
